Enrollment Update 2005-2012

Greetings from the FAEIS Office at Virginia Tech. The 2013 surveys are open and collecting data. Thanks to those of you who have already started your surveys.

The FAEIS project is now in its 31st year of sponsorship by the USDA and has been at Virginia Tech since 2002. Back in the old days, when FAEIS was at Texas A&M University, they mailed out a thick annual report that summarized the data collected for previous years. These reports contained the surveys for the next year in an appendix.

For the November newsletter we will step back and look at the big picture — the way the data was presented in the old printed reports. We start with overall trends for enrollment in the major FAEIS program areas: Agriculture, Natural Resources, Family and Consumer/Human Sciences. Then we rank the top 25 colleges in each of these areas by their total enrollment for Fall 2012.

These days, FAEIS is an online system (<http://faeis.usda.gov>); the days of distributing printed reports and surveys are long past. But we want to acknowledge the early years of the project when it began as a successful collaboration between Texas A&M, USDA, NA-SULGC, AASCARR, NAPFCS, BOHS, CAFCS and other organizations.

Thanks to everyone who contributes time, data and support for FAEIS. Who knows what the future holds!
